

## LED professional Review (LpR) – Guideline for Authors

- **Language:** English
- **Content:** Technology focused article with background information and detailed explanation about technical systems. Measurement and simulation results should support the description if possible. Please have a look at back issues regarding the content and style.
- **Reference:** Name of the author(s) and company name
- **Space:** 3-5 A4 pages including pictures (ca. 2000-3000 words)
- **Pictures, Graphs:** In high resolution (300dpi); pdf, jpg, gif, png formats. Pictures should be provided separately.
- **Advertisement:** No direct company advertisement should be made within the article. The company name is mentioned in the article reference.
- **Publishing:** The article will be published in free trial digital, full digital and printed issues. The article may be published through other channels with the written permission of Luger Research and after official publishing date only. In case of republication (parts or full article), a reference to LED professional Review including issue number is mandatory.
