
INVITATION TO THE SYMPOSIUM

OpenAIS – CONNECTING THE INTERNET OF LIGHTS

Wednesday, May 23rd, 2018

9.30 am – 5.30 pm

“White Lady” (Witte Dame)

Emmasingel 28, Eindhoven

Following the mass adoption of LEDs and the subsequent digitisation, lighting has now become integrated into the Internet of Things. Over the past three years a consortium of leading European companies worked on the OpenAIS project, to address the challenges of the Internet of Lights. At the symposium the OpenAIS team will present the project results and demonstrate a pilot implementation of the architecture in the industrial heritage building “**De Witte Dame**” in Eindhoven.

LOCATION

de Witte Dame Zaal @ White Lady
building (5th floor)
Emmasingel 28 | 5611AZ Eindhoven
The Netherlands

Please take the public
elevator outside no. 28
